Committed to contributing my creativity, problem-solving and determination to develop user-centric and innovative web solutions that make a meaningful impact.

## Experience

---

### Front End Web Developer Intern - *Diggifi*

2023 January - March

Successfully implemented responsive UI while working with the design team by translating mock-ups into functional web pages. Extended my skills by learning and integrating Redux and TypeScript. Contributed to the Customer Relationship Management (CRM)

### Web Developer Intern - *Livnot U'Lehibanot*

2023 April - June

Revamped and modernized the company's website using a combination of WordPress, raw HTML, and CSS. Enhanced operational efficiency by implementing technological solutions that streamlined the recruitment workflow. Collaborated within a dynamic fast paced and constantly changing work environment, engaging with an international team and diverse clientele.

### Full Stack Web Development - *University of Utah*

2022 June - December

Developed expertise in front-end technologies like HTML, CSS, and JavaScript, as well became proficient in back-end scripting with Node, Express, SQL, MongoDB, and API integration. Team Lead of three hands-on projects: Front End, Full Stack, and E-commerce Website.

### Ski Valet - *Washinton School House Hotel*

2021 November – January 2023

Collaborated within a dedicated team around the clock to deliver seamless guest service, while also ensuring the organization and maintenance of ski equipment to elevate the overall luxury experience. Receiving an award from Leading Hotels of the World for outstanding service.
